Telephone deposition of:

WESLEY SCHNEIDER

called for examination by counsel for the U.S. Army,
pursuant to Notice, taken at the Army Litigation
Center, Contract Appeals Division, 901 N. Stuart
Street, Suite 500, Arlington, Virginia 22203
beginning at 1:57 p.m., before Lu Anne Dawson, Notary
Public in and for the Commonwealth of Virginia, when
were present on behalf of the respective parties:

Dual Hose + Dual
Valve Knock-off⁹²

1 and they ensured that that wasn't going to be the
2 case.

3 ~~(S)~~ This is after I went to see Mr. Scully
4 in February of '87, and that's the reason why I was
5 really angry about it, and it came to pass that the
6 Army was going to make their own because this is when
7 I, in the FOIA, I learned that there was a test and
8 evaluation strategy meeting in June of '87 where
9 Mr. Snow had been demonstrating inside the meeting
10 there a crude prototype, according to the test
11 minutes of that meeting, of a competitive, in-house
12 design that was being placed to knock off my item and
13 because it was a -- this was not a dual valve system.
14 This was a dual hose -- I have it the other way
15 around.

16 ~~(S)~~ ~~(X)~~ The ILC effort was a dual hose system,
17 and the ~~(S)~~ Natick effort in '87 was a dual valve system.
18 Both were offspring of my original proposals and
19 research that I had done.

21 A. And --

22 Q. I'm sorry. Go ahead.
