The Food and Drug Administration has pirated our copyrighted research, patent and trade secrets to plagiarize and duplicate our suite of computer driven software tools designed to enhance food safety and food defense.

Please provide documentation certifying that all members of the Food and Drug Administration's Food Defense Team received ethics training every year during the period of their employment with the US Government.

We request expedited processing since the results of this request may indicate the existence of gross fraud waste and abuse in the Food and Drug Administration. The existence of gross fraud waste and abuse involving employees responsible for the safety and security of the U.S. food supply represents a real and imminent threat to the safety of the U.S. public.

We also request that fees for providing the above information be waived based on the requestor's status as a free-lance journalist who intends to broadly publish the results of this Freedom of Information Act request.

Sincerely,

John H. Hnatio, EdD, PhD  
Chief Science Officer
