Dear Attorney General Frosh:

On June 1, 2015, Dr. Stephen Ostroff, Acting Commissioner of the Food and Drug Administration (FDA), was served a "Constructive Notice", pursuant to §§ 1-308 (remedy), and; 1-103 (recourse) under common law as codified by the Uniform Commercial Code (UCC).

FDA is a federal agency reporting to the Department of Health and Human Services (HHS) that physically operates in and accordance with the laws of the State of Maryland. Violations of State of Maryland civil and criminal laws have directly harmed the complainant a citizen of the State of Maryland, the citizens of the State of Maryland and the United States.

The Constructive Notice served on Dr. Ostroff contained a sworn affidavit of truth that included 42 statements of fact and 26 exhibits of proof demonstrating that FDA engaged in violations of State of Maryland and federal civil and criminal laws that directly harmed the complainant, the citizens of the State of Maryland and the United States. A copy of the affidavit of truth presented to Dr. Ostroff for rebuttal and all supporting exhibits can be viewed and downloaded for your use on-line at <http://www.jgpis.org>

Dr. Ostroff was granted 45 days (15 more days than the 30 day limit codified under the law) in which to rebut the facts as presented to him in the affidavit. Dr. Ostroff chose not rebut any of the facts as presented to him thereby "defaulting" at 11:59 PM on June 21, 2015. Default having occurred, the facts as set forth in the Constructive Notice are now established as conclusive and dispositive facts in all subsequent matters of law in accordance with Uniform Commercial Code §1-205.

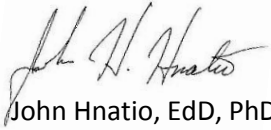

At this time and based on the now conclusive and dispositive facts under the law, we request that you open a formal inquiry into the facts and take appropriate sanctions against Dr. Ostroff and the FDA based on violations of civil and criminal laws of the State of Maryland based on Dr. Ostroff's public concession of guilt in this matter.
