April 17, 2013

Dear David:

The purpose of this letter is to confirm receipt of your letter terminating any relationship between FoodQuestTQ LLC and Leavitt Partners. Please be advised that we are implementing the requests made by Leavitt Partners in your letter to me dated April 16, 2013.

We appreciate Leavitt Partners concerns about continuing any type of business relationship with us under the circumstances. Other people in the food industry have similar concerns about possible retribution against them and their companies by the FDA for continuing any type of relationship with us. We recognize that we are being blacklisted by the FDA.

Under the terms of our mutual NDA we request that you continue to protect and preserve the intellectual property we shared with Leavitt Partners. We are asking everyone with whom we shared our intellectual property to do the same. This could be very important as we try to resolve the situation involving the FDA.

We at FoodQuestTQ wish you, Jennifer and the rest of the team at Leavitt Partners good fortune in all your future endeavors. All of us very much enjoyed the opportunity to work with you.

All the best,

John H. Hnatio
Chief Science Officer
